Online ServicesCloud storage services are a viable option for file sharing if you have a high-speed internet connection.. Cloud offers you the ability to share files with devices or people with whom it is not physically possible to be with.. 2 Physical DevicesPhysical storage devices such as pen drives, external hard disks (HDDs), Solid State Drives (SSDs) have risen in popularity over the last few years owing to the ease of file sharing they offer.. All of them offer 10-15 GB free storage once you sign up If you need more storage space, you need to upgrade to a paid version, which usually cost $3-4 per month for 100 GB.. Cloud storage is extensively used as backup solutions by many people and they can even be used to share files with other people just by sending them a link to the hosted file. e828bfe731 Keeway Dragon Manual
